

Appendix D - ASAM Crosswalk with OASAS Levels of Care

The standard instrument used in NYS is LOCADTR 3.0 which defines appropriate placement of clients into approved NYS LOCs. These LOCs are consistent with ASAM LOCs. However, there are New York State specific level of care attributes. *A full description of the levels of care are included in Appendix C of this document.* Entities insuring patients in NYS will need to comply with NYS specific LOCs.

This table provides a listing of OASAS certified programs; the applicable authorizing New York State program regulation; and where appropriate, a cross walk to an ASAM level of care.

| OASAS Program Type | New York State Regulation | ASAM |
|--|---------------------------|--------------|
| Outpatient | | |
| Outpatient Clinic | Title 14 NYCRR Part 822 | Level I |
